

## About the product

Adhesive coating with a golden steel appearance, designed for walls and furniture to introduce a deep and controlled metallic presence indoors.

## Characteristics

 SUPPORT Vinyle	 ADHESIF Acrylique Polymère
 PROTECTEUR PET siliconé	 EPAISSEUR AVEC LINER 388 microns
 EPAISSEUR SANS LINER 225 microns	 EPAISSEUR LINER 163 microns
 FACE D'APPLICATION Intérieure	 RESISTANCE Optimale
 T° D'APPLICATION min 5°C	NORMES EUROCLASSES

## Available sizes

WIDTH 1.22 M

5 m

10 m

30 m

50 m

## Features

-  Durability  
12 to 15 years in Central Europe
-  Usage  
Designed for all types of glazing
-  Maintenance  
After 30 days, non-abrasive solution
-  Storage  
2 years, away from moisture

## Application guide

### Application method

The surface to be bonded must be free of dust, grease or any other contaminant. Some materials such as polycarbonate may cause bubbling problems. A compatibility test is therefore recommended.

### Production tracking

In order to continuously improve our production, we may modify the colors and manufacturing processes of our products without notice. We recommend ensuring that they are exactly suitable for the intended use.

### Certifications

Product compliant with European standards EN 13501 (fire reaction) and Euroclass for fire safety. Certified for indoor use.
