

### About the product

Light wood-effect adhesive covering with a balanced and timeless look. A bright and versatile base to enhance walls and furniture.

### Characteristics

### Features

#### Durability

12 to 15 years in Central Europe

#### Usage

Designed for all types of glazing

#### Maintenance

After 30 days, non-abrasive solution

#### Storage

2 years, away from moisture

### Application guide

#### Application method

The surface to be bonded must be free of dust, grease or any other contaminant. Some materials such as polycarbonate may cause bubbling problems. A compatibility test is therefore recommended.

#### Production tracking

In order to continuously improve our production, we may modify the colors and manufacturing processes of our products without notice. We recommend ensuring that they are exactly suitable for the intended use.

#### Certifications

Product compliant with European standards EN 13501 (fire reaction) and Euroclass for fire safety. Certified for indoor use.
